Day 6: Ngorongoro Crater

After breakfast, we make our descent into the Ngorongoro Crater, the Earth's largest unbroken caldera. A veritable "Garden of Eden," the Crater is reputed to contain the highest density of carnivores, which includes cheetah, leopard and lion. This is the only place in East Africa where one can easily observe a natural population of black rhino. Full day exploring the crater with picnic lunch served at designated site. This evening we overnight at the Plantation Lodge (BLD)

Days 7 & 8: Olduvai Gorge/Serengeti National Park (Seronera Valley)

It was here in the 1950's that Louis and Mary Leakey first uncovered the fossilized teeth and skull of one of our earliest ancestors. After an interpretive presentation, we continue to Tanzania's most renowned national park, the Serengeti. Home to the greatest concentration of large mammals on Earth, the migratory herds of wildebeest, zebra and gazelle roam widely in search of green grass and water. Morning and afternoon drives each day. We spend the next two nights at the Serengeti Serena Lodge overlooking the acacia dotted plains of the Serengeti. (BLD)
